### Machinern, &c.

A NEW THING ENTIRELY -The most

A NEW THING ENTIRELY—The most astanishing performance heard of. Barrels, Firkins, Kegs, and the whole cooper family made and finished, without a defect, air-tight, and smooth enough to varish, entirely by Machinery.

Our Machine, with the tools used to perform the work, is a patent, for which we have received Gold and Silver Medals and State Diploms. It takes the timber in the boils, saw sith stave hollowing in the grain, cuts them all of equal length, planes both in and outside perfectly smooth, tries the quality of the timber, joints them in a perfect manner, giving each stave its equal proportion of bilge, according to its width, be it wide or narrow; chamfers howels, cuts the crease, turns the head, and prepures the barrel or keg for the hooping process, in a manner so perfect, complete, and of supernor finish that we challenge the World to produce a better barrel, fixin or keg, than our Machines make, at the rate of 300 per day to the single set—to which we invite the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the particular attention of all who choose to give them invited the most inspection. We mandature attention of all who choose to give them in the most inspect on the most inspect on the most inspect on the most pleasure of the most particular attention, and the Elmira and Niagara Falia Railroad, rive minutes walk north of the depot, where any persons who w

J. R. PALMENBERG & Co. manufacture of Galvano-Magnetic Apparatuses after a most simple construction, and though having a very small battery are of a most powerful effect. Apparatuses small enough to be extrict in a pocket made to order. They also have on hand the celebrated coak-cylinders—Fonsen's—in all sizes and shapes, which are the best batteries for gidling, shvering, chemical purposes and experimenting, having a stronger stream than any others known. No. 232 7th-st. between Avenues C and D.

Q UARTZ CRUSHING MACHINE.—The attention of parties interested in Quartz Creshing Machines is requested to a machine which has been erected for me and put in operation by steam at the Novelty Iron-Works. The quantity and fineness of the work done has been very settsfactory. Particulars can be obtained from me at No. 208 Broadway, or by application at the Novelty Iron-Works.

experiment made at the Works, and which can be seen desired.

With a street pressure of 4½ inches of water, and one burner near the governor, the pressure of the burner gauge was seven-tenths. The governor remaining untouched, the number of lights was increased to 34, extending over a surface of several bundred feet, and the street pressure was reduced two inches, and the pressure gauge at the governor remained, as before, seven-tenths.

Respectfully, your obt servit,

CHARLES ROOME.

Respectfully, your obt servi.

CHARLES ROOME.

Manhattan Gas Works, Oct. 23, 1832.

The Gas Regulator of Dr. Kidder is, in my opinion, the most valuable instrument for regulating the flow of gas to burners that I have ever seen.

It is correct in principle, and will accomplish admirably the objects for which it is designed.

It will insure great steadisess in the lights, and as the pressure at the meter is, by this ins rument, reduced considerably below that on the street mains, it will enable the coasimer to gain an equal amount of light at a smaller expenditure of gas; for the less the pressure under which the gas is consumed, the greater is the amount of high taken and CHARLES ROOME, Engineer M. Gas Light Co.

Applications for the Regulator are received at the office of the Company, corner of Canal and Centre-sts., 3d story.

THOMAS DARLING, Sec.

Pamphlets containing an account of the Regulator, and the certificates of parties who have the machine in use, may be had at the office of the Company, or of S. T. CLARKE, No 107 Fulton-st., Golden Rule Office.

### Diano-Fortes.

Piano-Fortes.

A CLIAN PIANOS.—T. GILBERT & Co.'s
PIANO-FORTE WARE-ROOMS, No. 333 Broadway, cor. of Anthony-st., 2d fleor, New York.—Pianos with and without the celebrated & Jolian, wholesale and retail. Boudeir or Cottage Pianos, convenient for small rooms; also, second-hand Pianos. Pianos with and without the Echian, to hire. Melodeons for sele.

The attention of the public is invited to the following notice from The New-York Evangelist:

T. GILBERT & Co.'s . Eolian Piano-Fortes.—Long familiarity with these instruments anables us to speak with a degree of confidence that we could not others use claim, respecting their great merit, and the beauty and adaptedness of the Achina attachment to some of the best purposes which a musical instrument serves in a Christian family.—The instruments are very firmly built, requiring less tuning than any others we know of, and possess remarkable sweetness and purity of tone. Within a few years, great improvements have been made in their manufacture, by which a much stronger and more brilliant tone is secured. In point of depth and volume, as well as in evenness of tone, throughout the entire register, and classicity of touch, we know not whose manufacture is superior to Gilbert's. Those who have never tried them will be surprised to find such attainments made. The Kolian is soft and delicate, and as well adapted for the voice and for sacred music as the organ itself, in these, also, Mr Gilbert has been making marked improvements within a few years, so that a delightful delicacy and purity of tone has been secured. We are glad to find them beginning to be so well appreciated. This house has applied about two thousand Acolians in the last eight years. They are now applying ten a week, and are unable to supply the demand. They are furnished at the Ware-room at the same prices as at the Maunfactory, and the buyer may feel assured of fair dealing and upright treatment.

A CLIAN PIANO-FORTES, at No. 441

Broadway.—A large assortment of Pianos from the celebrates house of Hallet, Davis & Co., Boston: also, the well-known Instruments of A W Ladd & Co., with a full supply of new and second-hand Pianos of various makers, for sale at prices which defy compention.
